

Project Profile

Sector: Contaminated Land

Project: An Introduction to Contaminated Land

Client: East Riding of Yorkshire Council

Period: January 2000

The East Riding of Yorkshire Council commissioned LQM to develop a two day introductory package on contaminated land issues. The client worked with LQM in developing the training materials to specifically meet the needs of the delegates.

The twenty delegates who were mainly staff from the Environmental Protection Division actively participated in the course which covered issues relating to

- Legislation and policy in the UK including the Part IIA regime
- Geology
- Developing the site conceptual model
- Principles of subsurface investigation
- Human health risk assessment

The course comprised of a series of lectures and group based activities.
